REVEAL DETAILS OF NEW REVOLT

**American Financiers Backing
Huerta And Orozco To Be
Punished If Identified**

OTHER MEXICANS ARE WATCHFUL

**State Department Advised Former
Dictator To Remain Out
Of Southern Affairs**

WASHINGTON, June 28.—Inside details of the plot to restore a Huerta regime to Mexico, tipped in the bud by the United States, began trickling out today through the net of official secrecy, while General Huerta and his chief lieutenant, Pascual Orozco, are under federal detention at El Paso.

Other Mexicans, nearly a score of whom had a part in the plot that failed and probably some Americans, are under surveillance by the department of justice.

Secretary Lansing conferred today with Assistant Attorney General Warren, and it became apparent that the department of justice intends to sift the case to find the lackers of the new revolution. Where the trail might lead in the United States is only a matter of conjecture. All officials were silent on that feature, but it generally is believed by those in close touch with Mexican affairs that the coup was to have the financial support of some prominent American interests.

Huerta Offered Services

Official information was disclosed weeks ago that Huerta, in apparent seclusion at his country place on Long Island, offered his services to General Huertado, one of the exile colony, in New York, and at the same time sent an emissary to Washington to ask if he would be "persona grata" to this government if he took a part in Mexican affairs.

Huerta declined Huerta's company and simultaneously Washington sent word to the former dictator that he would be persona non grata decidedly so.

Immediately thereafter, the official advisers here say, Huerta renewed his offer to Huertado, with a modified proposal that Huertado accept Huerta's aid, without Huerta's leadership but with the co-operation of his associates.

That offer, officials here and diplomats with Mexican interests who have been keeping themselves informed say, Huertado accepted.

In view of this information, officials are puzzled to know just how much of an active part Huerta intended to take in the movement on Mexican soil, although they have no doubt that at least he intended to take charge of affairs on the border.

Junta in El Paso

In that connection it is known that for weeks a party of prominent Mexicans, styled by the Carranza and Villa adherents "Huertistas" and identified, have been maintaining an active junta in El Paso, in constant communication with General Huerta and other members of the exile colony in New York, and maintained among themselves the form of a provisional government with a president and members of a cabinet.

Advices to Mexicans here have continually indicated that the junta was planning some definite move.

Secretary Lansing disclosed today that the initiative had been taken by the department of justice. He declined to say if any consideration of American policy were involved, but it is known authoritatively that no more revolutionary elements shall be introduced into the Mexican situation and that, as far as possible, there will be vigorous prosecution of all other Mexicans who may be planning to set about military expeditions from the United States.

It was made clear at the agencies of the department of justice that these agencies are being directed not alone against Huerta and Orozco but against other offenders affiliated with all Mexican factions who now are under indictment. Officials of the department of justice were much surprised to learn that Huerta and Orozco had been released on bail and ordered that a close watch be kept on them.

Officials at the state department declined to say whether the detention of Huerta arresting in effect any contemplated counter revolution in Mexico was in conformity with the government's announced peace plan. Villa agents here interpreted Huerta's detention, however, as meaning that the American government was unwilling that he should complicate the situation by a re-entry into Mexico.

Until President Wilson returns from his trip to Cornish, N. H., it is unlikely that there will be any new steps in the government policy toward Mexico. In fact while there still is a delicate situation in Germany, it is said in well informed quarters that positive action by the United States in the Mexican situation is very unlikely.

The American government will give the warring factions more time to come to an agreement in the meantime. It is believed, preventing General Huerta and others from complicating the situation and exerting pressure to bring about the formation of a government that may be accorded recognition.

**ZION ORGANIZATIONS
IN SEPARATE MEETINGS**

BOSTON, June 28.—Separate conventions of the various Zion organizations meeting here were begun today. The first body to come together was the federation of American Zionists. A discussion of the general Jewish association was planned.

\$600 FOR GOOD ROADS

**Three Days This Week Will Be Spent
Improving Highways Leading Into
Chickasha**

CHICKASHA, Ok., June 28.—Approximately \$600 will be spent on road improvement near this city this week, if plans made at a mass meeting of citizens and farmers held here Saturday night mature. The money is a portion of a fund levied a year ago, but this much was not spent, and if it is not used at once it will revert back to the treasury. It is planned to spend \$200 a day for three days this week, and men have been engaged to work the roads entering the city.

It was this spring and summer have done much damage to the roads coming into the city, and the business men are anxious to have them repaired so far that farmers can get into the city easily. The hauling of grain will begin soon, when Grady county's big wheat yield will be brought to market.

BACKSLID FROM SAFE-SANE IDEA

State Is Expected to Give More Minute Attention This Year Than Ever To Common Sense Fourth of July

The safe and sane Fourth of July propaganda is receiving overdue attention in every town of the state, largely because with the last two years there has been a tendency to get back to the dangerous sort of celebration. While most cities have not altered ordinances so as to permit of greater freedom in celebrating the Fourth there has been a letup somewhere along the line in the prosecution of the same Fourth idea.

That this is so appears from the following table showing injuries and deaths since 1903, all attributable to fireworks, the figures having been compiled by the American Medical Association:

Year	Dead	Injured	Total
1903	406	5,983	6,389
1904	180	3,980	4,160
1905	182	4,994	5,176
1906	158	5,308	5,466
1907	164	4,240	4,404
1908	163	5,490	5,653
1909	215	5,092	5,307
1910	131	2,792	2,923
1911	57	1,946	2,003
1912	41	947	988
1913	32	1,131	1,163
1914	40	1,460	1,500

Total 12 years, 1,832 40,954 42,786

IS HEARING POOL HALL LICENSEES

Postelwaite at Second and Broadway Is Turned Down by County Court—Pitch Playing for Checks Banned

Playing pitch for trade checks in pool halls is a thing of the past in Oklahoma City, according to a ruling made in the county court today by Judge Zwick. Assistant County Attorney Harold Lee, read the section of the statute making gambling a felony and called attention to the fact that it includes playing for trade checks as well as for money.

Thirty-two pool hall proprietors were before the court today for hearing on their applications for licenses under the new law. The reputable pool hall owners had no trouble at all, although the regular form of questions was put to them. Where there was no suspicion of bootlegging or gambling the license was granted without question.

Chief of Police Nichols and other members of the department attended the hearing today and had with them evidence in all of the cases where bootlegging joints have been run in connection with the pool halls. The Postelwaite pool hall at Second and Broadway was denied a license on the evidence of the police.

Postelwaite said the place next door had been raided by the police and that once the officers found liquor in the rear of the pool hall, but said he did not rent the room it was in. He testified that he had never been convicted.

SEEK FAVORABLE SHIPPING LAWS

San Francisco Chamber of Commerce Urges Secretary Redfield and Other Commercial Bodies to Boost Trade

SAN FRANCISCO, June 28.—What is intended to be a nation-wide appeal for legislation favorable to American shipping, was launched here today with the forwarding of resolutions to President Wilson, Secretary of Commerce Redfield and 400 American commercial bodies, by the San Francisco chamber of commerce. Each organization to which the resolution was asked to urge his congressional delegation to press forward laws encouraging American shipping and for repeal of existing "discriminatory acts."

The resolutions request President Wilson to appoint a commission of practical shippers to study the laws and regulations relating to government shipping in this and other countries and then draft a bill outlining a conservative method of building up a permanent merchant marine.

The announcement that the Pacific Mail company would discontinue its trans-Pacific service and that the Dollar Line would transfer from American registry and the announcement that other Pacific lines would plan to switch from the American flag were given as reasons for the appeals.

WILLIAMS SNAPS FINGER AT LAW

**Republicans Continue To Resist
Chief Executive's Disregard
Of Their Rights**

ASP STIGMATIZES RECENT ACT

**Objects Not To Selection Of Beeler
But To Attitude Of Political
Defiance**

When Governor Williams disregarded the recommendations of the state Republican committee and used his own pleasure in selecting the Republican member of the state election board, he placed himself in the attitude of a member, in the opinion of numerous members of the party most interested. That he did not consider the recommendations came from the Republican state central committee, is disputed by those who know.

Henry Asp, one of the leading members of the Oklahoma bar, and one who has been identified with the interests of the Republican party for many years, when asked today his opinion of the action of the governor, said:

"I have no quarrel with Mr. Beeler. He is one of my personal friends and I am satisfied he can be depended upon to faithfully perform the duties of the office."

"That Mr. Beeler is a good selection does not change the situation. The law provides that the state central committee shall have the privilege of selecting and presenting to the governor lists of five electors from whom he may choose of the state election board from each of the two dominant political parties."

"The law further provides that such appointment shall be made by and with the advice and consent of the senate."

"The law further declares when he may go outside of the lists submitted by the state central committee of the respective political parties as follows:

"If any political party fail or refuse to submit a list of nominees, the governor may, notwithstanding such refusal, appoint a representative of such party to membership upon the state election board."

"Which shows that in the making of this selection the governor disregarded the law, by making a selection outside of the list submitted, and although the lists were submitted while the legislature was in session so that the governor had ample opportunity to secure the advice and consent of the senate, in disregard of the law he failed to do so."

"Even if the governor is right in his position that the statute is directory, it is at least an expression of the legislative will, and ought to be followed by one whose highest duty is to obey as well as to enforce the law."

BEELER LEARNS CUES

Next Week the Now Complete State Election Board Will Proceed With County Appointments

Secretary Joe Morris of the state election board is explaining the workings of the office to Harry R. Beeler, the newly appointed Republican member of the board, and Mr. Beeler will for the next few days acquaint himself with the affairs of the board.

A. L. Walker, the other member of the board, and chairman, is not in the city meeting with the other two members. It is expected that some time this week all three members will assemble and proceed with the selection of members of the county election boards throughout the state.

CANAL MAKING MONEY; TOLLS WILL CUT DEFICIT

WASHINGTON, June 28.—A total of \$4,000,000 in tolls was collected for the use of the Panama canal up to June 6. During April the tolls for the first time were greater than the cost of operation and maintenance of the canal by \$442,415. Operations for May indicate that the tolls for that month will wipe out the previous existing deficit.

These calculations do not take into account interest on the capital invested in the canal.

VERA CRUZ NOT HUNGRY; TOLLS OF BEANS UNTOUCHED

NEW ORLEANS, La., June 28.—Vera Cruz is not in need of food, according to a long cablegram to the Carranza agent here. The cablegram branded reports of food shortage in Vera Cruz as false.

Tons of beans were reported unloaded at Vera Cruz by the United States transport Buford and have not been touched. J. C. O'Connor, agent of the Red Cross having satisfied himself that distribution of the food was unnecessary.

It was said that O'Connor and American Consul Shanklin leave Vera Cruz for Mexico City Tuesday.

**CATHOLIC EDUCATIONAL
ASSOCIATION CONVENES**

ST. PAUL, Minn., June 28.—With prominent Catholic educators and priests present here today the Catholic Educational association began a four day meeting. This is the twelfth annual convention and is the first held west of the Mississippi river. The general session tomorrow will be an address by Archbishop John Ireland of St. Paul, under whose auspices this convention is held.

STORM IN OIL FIELDS Sunday Morning Wind and Rain Causes \$25,000 Loss; Tops Blown From Tanks

TULSA, Okla., June 28.—A severe wind and rain storm swept over the Oklahoma oil fields Sunday morning doing damage estimated at \$25,000. In the Cleveland field 107 rigs were blown down.

The Prairie Oil & Gas company was a heavy loser. The tops of five tanks near Cleveland belonging to the Gulf Pipe Line company were blown off. A number of scattered rigs were blown down in different parts of the field.

The Prairie Oil & Gas company eight-inch gas pipe line was broken in two in the middle of the river at Leaty Station, thus cutting off the gas supply to the Indian pumping station which furnishes power to operate the oil line leading from the Cushing and Cleveland fields.

KANSAS CITY, June 28.—Resumption of wire communication today with the districts swept by storms in northern and eastern Oklahoma and central Kansas showed that much damage was suffered in the Oklahoma oil fields. It was estimated that the damage to oil property would amount to \$25,000.

Severe damage to thousands of acres of crops was reported from lowlands around Wichita, Kansas, visited by another heavy rain today were submerged.

ST. LOUIS, June 28.—Heavy rains today threatened floods in the vicinity of St. Louis. Many lowlands farms in the valley of the Meramec river are under water.

More than four inches of rain has fallen in St. Louis in the last thirty hours and storm sewers are choked and streets are flooded.

The Mississippi river today registered 30.5 feet or six inches above flood stage.

HUERTA REFUSES TO TELL OF PLOT

Says Will Make No Statement to Press Until After Thursday Hearing Before Department of Justice

EL PASO, Texas, June 28.—General Huerta, former president of Mexico, who, with other prominent factors in Mexican turmoil is under surveillance by agents of the United States department of justice, declined today further to discuss the events of yesterday which led to his detention on charges of implication in a plot to set up a new Mexican revolution.

He stood upon his declaration of last night that he would not enter Mexico at the head of an armed force.

Leaders here of the Villa and Carranza factions were silent on recent developments.

It is no secret here that General Huerta and his chief adherents including Generals Castro, Tago and Carrasco, are being closely watched.

General Huerta breakfasted with his daughter's family. To newspapermen he said:

"I will make no statement to the press until after my hearing next Thursday."

There were a number of Mexicans waiting to see General Huerta, and as the forenoon wore on others arrived in an almost continuous stream. Little knots of curious persons gathered in the streets around Huerta's residence and throughout the morning there was an occasional "viva Huerta."

General Huerta greeted the newspapermen in brief, sharp phrases. The audience was brief, owing to his determination to undergo no formal interview.

"The United States authorities were justified in arresting General Huerta," said Miguel Diaz Lombard, foreign minister in the Villa cabinet at a conference with newspapermen.

"I regard yesterday's demonstration at the federal building as the last proof that there is an organized movement of Huerta adherents here. Fifteen minutes after Huerta reached the collector's office the building was surrounded by a thousand Mexicans, nearly all Huerta adherents and sympathizers."

The bonds of \$15,000 and \$7,500 under which Huerta and Orozco were released respectively, Lombard regards as entirely inadequate.

"It is absolutely not worth considering," said he. "If Huerta or Orozco plan to enter Mexico, this bond will not stop them for an instant."

Lombard stated he had heard nothing from General Felipe Angeles, Villa commander, now sojourning in the United States. He said he would remain in El Paso for two or three days at least, but did not know whether he would proceed to Washington or return to Chihuahua.

A message from Villa to Lombard, (Continued on Last Page.)

THE WEATHER

Washington Forecast
KANSAS—Unsettled tonight with showers and in south portion on Tuesday; not much change in temperature.
OKLAHOMA—Unsettled tonight and Tuesday, probably showers and thunderstorms in east portion.
LOUISIANA, EAST TEXAS—Tonight and Tuesday unsettled with showers and thunderstorms.
ARKANSAS—Unsettled tonight and Tuesday, probably showers and thunderstorms.
WEST TEXAS—Tonight and Tuesday generally fair.
Unsettled weather tonight and Tuesday; not much change in temperature.

Midnight 88
Moderate to heavy showers and thunderstorms have been general during the past twenty-four hours in Kansas, Missouri, Oklahoma, the upper Mississippi valley and the southeastern states. St. Louis, Mo., reports 3.6 inches of precipitation. While it is decidedly cool in the Rocky Mountain states, the temperature in other sections of the country is near the seasonal averages.

GERMANS' REPLY TO BE FRIENDLY

Official Message From Berlin Creates Optimism In State Department

'FAVORABLE' ANSWER TO WILSON

**First Advices Of Definite Nature
Concerning Attitude Of Kaiser's
Government**

WASHINGTON, June 28.—A favorable reply by Germany to the last American note on submarine warfare is indicated in today's state department advices from Berlin.

The advices came from Ambassador Gerard and were notably the first of a definite nature received since the American note reached the German foreign office. The exact nature of the ambassador's message was not divulged for obvious reasons, and it did not become known whether he revealed any indication of the trend of the forthcoming German reply.

The ambassador's dispatch was of sufficient detail, however, to put officials in an optimistic attitude. It was communicated at once to President Wilson at Cornish, N. H.

Ambassador Gerard based his observations on the favorable effect which the visit of Dr. Anton Meyer Gerhard, emissary of Count Von Bernstorff, the German ambassador had produced on officials of the German government. Dr. Gerhard was understood by Ambassador Gerard to have reported that public opinion in the United States had been growing more and more favorable to Germany when the sinking of the Lusitania which had been accomplished, Gerhard made it clear also that the United States did not want war, but wanted a satisfactory reply to its representations.

German officials are eager, according to Ambassador Gerard's report to give such an answer, but at the same time they have made it clear that Germany cannot make any concessions which would destroy the effectiveness of the submarine as an offensive weapon.

What the German government is endeavoring to do, it is understood to find some method by which American traveling on ships privately used for passenger traffic, shall be safe while the submarine continues to be used in attacking freight ships of belligerent nationalities carrying chiefly contraband.

No information had been received on what the attitude of Germany would be toward assuming liability for the loss of American lives on the Lusitania.

BRITISH SHIP SINKS

The Indrani Is Sabbath Victim Of Irish Coast, Of German Submarine; Crew Is Saved

LONDON, June 28.—The British steamer Indrani of 3,640 tons gross was sunk Sunday by a German submarine at a point southwest of Tuskar Island. The crew was saved.

The steamer Indrani sailed from New York March 28 by way of Bordeaux for Glasgow, where she arrived June 19. The Indrani was 361 feet long, was built in Liverpool in 1888 and owned by Donaldson Brothers of Glasgow.

Tuskar Rock is an islet off the southeast coast of Wexford county in St. George's channel.

'PUT ON SHOW' ON 23D; SUED FOR DIVORCE ON 28TH

John Jones "put on a show" on the night of June 23, according to the allegations made in the petition filed in the district court today by his wife, Esther Jones, in which she asks for a divorce from him and the payment of alimony. The wants \$5 a week and \$25 with which to pay her lawyer.

Mrs. Jones alleges that on that evening her husband cursed and abused her, her child and her mother, struck her a vicious and cruel blow and drove her from the house. Then he refused to permit her to return, it is stated in the petition. The result was that the suit for divorce was filed just as soon as a lawyer could prepare it.

STATE INTRODUCES NEW SYSTEM OF PAYING WAGES

All state departments are preparing to enter upon the new fiscal year July 1 with a new system of accounting and especially that having to do with the payrolls of each department. Hereafter each department will have a payroll of its own and all employees in that department will sign the roll and it will be handled by the head of the division. Instead of making out separate claims for each employee. In this way much bookkeeping will be saved, not to speak of the unnecessary amount of printing blanks and other necessities under the old system.

CURTIS WILL LEAD LYCEUM MUSICAL ORGANIZATION

NORMAN, Ok., June 28.—The Red path Lyceum bureau has just completed arrangements to secure the services of Prof. Lloyd B. Curtis, as director of the No. 1 company of their White Hussar on a summer circuit in Pennsylvania, beginning July 2. Prof. Curtis is a graduate of the University of Oklahoma and has, for several years since his graduation, been leader of the university band and has taken an active part in other musical organizations.

EX-BANKER FINED

Past Cashier of Defunct Memphis State Institution Who Did Not Benefit by President's Act, Is Punished

MEMPHIS, Tenn., June 28.—Claude Anderson, former cashier of the defunct Mercantile Bank, a state institution which failed two years ago for more than \$1,070,000, today was fined \$1,000 on his plea of nolle prosequere to the federal indictment charging misuse of mails in connection with the bank's collapse.

Anderson was indicted with C. Hunter Haine, the former president, who now is serving a five-year sentence in the federal prison at Atlanta.

It was stated that Anderson did not profit by the defalcations of Haine, who was charged with using the bank's funds in stock speculations and loan of not guilty, entered at his preliminary, was withdrawn today.

TEUTONS GAIN MORE SUCCESS

On Anniversary of Archduke Ferdinand's Assassination Germans and Austrians Push Slaves to Defeat

BERLIN, June 28.—The town of Halber, in Galicia, on the Danube river, has been occupied by German troops, according to the announcement given out today by German military headquarters.

Besides the occupation of Halber, the official statement announces that the Danube has been crossed by the Germans along the entire front.

LONDON, June 28.—The anniversary today of the assassination of Archduke Francis Ferdinand of Austria, which turned Europe into an armed camp, finds the struggle between Teutonism and Slavism for racial ascendancy nearing what is thought here to be its high water mark, with the Teutonic armies for the most part still outwardly, though not without difficulty dominating the situation.

The penetration of the German armies eastward from Lemberg has had the inevitable result of forcing the Russians from the 30-mile front between Borka and Zastawa, where they had offered such stubborn resistance. The Muscovites, as they themselves admit, now are falling back to the Gdula Lipa river, which runs from the northward of Przemyśl.

U. S. INSISTED ON THE 'OPEN DOOR'

Sent Note in May to Both Japan and China Saying America Treaty Rights Must Be Upheld

PEKING, June 28.—Warning that the United States would not recognize any agreement between China and Japan which impaired American rights in China or endangered the so-called "open door" policy, was conveyed to the governments of both China and Japan in an identical note from Washington which was delivered about May 15. The notes were handed to the foreign offices of both countries a week after China had acceded to the demands conceded in the Japanese ultimatum consisting of concessions from the former note.

The United States note in substance follows:

"In view of the negotiations pending between the government of China and the government of Japan, the United States has the honor to notify the government of the Chinese republic that it cannot recognize any agreement or undertaking which has been entered into, or which may be entered into between the governments of China and Japan impairing the treaty rights of the United States and its citizens in China, the political or territorial integrity of the republic of China or the international policy relative to China commonly known as the open door policy. An identical note has been transmitted to the Japanese government."

PEOPLE'S INTEREST FIRST

Commissioner Henshaw said yesterday that every phase of the gas industry would be considered in the action to be taken by the commission, and that above all the interests of the state who are the most vitally concerned in the gas supply, will be safeguarded whatever is done.

CROUCH CASE NEARS AN END

Defendant Charged With Contributing to Death of Mary Simmons Is Fighting Every Inch of the Way

The state is showing by many witnesses today that Mary Simmons, the girl alleged to have died from the result of an operation by Dr. James H. Crouch, was at the Maryland hotel on West California and that Dr. Crouch was seen there on a number of occasions.

The defense is fighting every inch of the way, however, and today endeavored to contradict W. L. Simmons, brother of the dead girl, who testified that he went to the Bristol hotel and met Dr. Crouch. It was there, he said, that he made the agreement with Dr. Crouch to pay him \$100. The hotel register was shown and it was testified to that Simmons did not register at the hotel until after midnight. Simmons has stated that he came earlier in the evening and had the talk with Dr. Crouch.

Joseph Scherubel, night clerk at the Bristol, took the stand for the state today and told of Simmons' visit. He said Simmons told him he wanted a doctor and wanted him at once. He called Dr. Crouch. Scherubel said Simmons did not register until after midnight, but that he was at the hotel earlier.

It is likely that arguments will be made this afternoon and the Crouch case will go to the jury tonight or tomorrow morning.

NO BLOOD UNDER NAILS OF 'CHICKEN JOE' CAMPBELL

CHICAGO, June 28.—Parcels taken from under the finger nails of "Chicken Joe" Campbell, the negro convict held by a coroner's jury for the murder of Mrs. Odette Allen, wife of the warden at the Joliet penitentiary, contained no trace of blood, it was announced today by Dr. William D. McNelly, coroner's physician of Cook county.

NINE-TENTHS GAS ABSOLUTE WASTE

Corporation Commission Faces In All Its Gravity This Question Of State Loss

\$20,000,000 IS GONE IN CUSHING

Conservation Looms As The Biggest Issue Of The Day In Oklahoma

That the public is getting the benefit of about 10 per cent of the natural gas produced in the state, and the remainder is going to waste, is indicated by the evidence and statements of witnesses in the hearings that have been conducted by the corporation commission in the effort to arrive at a basis for rules and regulations to be promulgated to conserve the gas supply. These hearings, have been held during the past week at Tulsa, Okmulgee and Bartlesville. Two more dates are yet to be filled, at Ardmore, Tuesday, and Oklahoma City, Wednesday. From the evidence secured the commission will then issue some order similar to that now controlling the production of oil in the Healdton field.

Commissioners George A. Henshaw and W. D. Humphrey returned Sunday from the oil fields where they have conducted the hearings.

During the hearing at Bartlesville the statement was made by A. J. Diescher, general manager of the Quapaw Gas company, that at least \$20,000,000 worth of gas had been wasted in the Cushing field alone, since it had been opened up.

Mr. Diescher is said to be one of the best posted men on oil and gas conditions in Oklahoma, and figures secured by him were used in support of the gas conservation bill in the legislature last winter.

Order Expected Soon

The commission
